

**Dr. Dianyou Li, MD, PhD**

Center for Functional Neurosurgery,  
Ruijin Hospital Affiliated to Shanghai Jiao Tong  
Univ, School of Medicine, China

Dr. Li is a senior functional neurosurgeon and chief physician in the Center for Functional Neurosurgery, Ruijin Hospital, Shanghai, China. A pioneer in neuromodulation therapies with more than twenty years' expertise, Dr. Li specializes in deep brain stimulation, stereotactic lesional surgeries, and focused ultrasound for the treatment of neurological and psychiatric disorders. He is now board member of the World Society for Stereotactic and Functional Neurosurgery (WSSFN) and board member of the Chinese Neuromodulation Society of Chinese Medical Doctor Association. In recent years, Dr. Li has focused on translational research on neuromodulation of tremor, as well as of cognitive aspects of Parkinson's disease. He has received several fundings support from the National Natural Science Foundation of China (NSFC) and Foundations of Shanghai Municipality.
